“ Since starting Project Ability, my art making skills have developed. I enjoy working with various materials and experimenting with colour. I was very fortunate to have a joint exhibition of my work, last year, and I was so proud to see my art hanging in Project Ability’s gallery; having my family and friends visit the gallery made it extra special for me. ”

Who we are

Project Ability's Trongate 103 studios and public gallery in the heart of Glasgow offer innovative creative opportunities for artists of all abilities. We believe the arts should be accessible and enjoyed by everyone and we are looking for like-minded organisations to support and partner with us in our mission.

Our Vision is that through participation, people gain access to unique opportunities to learn skills, grow in confidence and demonstrate their talent and ability.

Our Mission is to provide a welcoming community for disabled people, people with learning disabilities and people with lived experience of mental ill health, allowing them to express themselves, achieve their potential and succeed as artists.

Our Purpose is to improve the well-being of people with learning disabilities and lived experience of mental ill health through engagement, development and enjoyment of visual art.

“I love coming to Project Ability. I feel safe and I'm able to meet and socialise with other people of my age who are also passionate about art.”
